Examination in Law & Practice of Patents

Subject to there being a sufficient number of candidates, it is proposed to hold a written examination in the law and practice of Patents on **22 April 2020**. The latest date for receipt of applications from persons who wish to sit this written examination is **1 April 2020**.

Candidates wishing to be examined must have submitted in advance to the Controller an application form and fee of €200 not later than **1 April 2020**.

Applicants who wish to sit the examination will be notified of the venue and furnished with other relevant information in due course.

Applications for Patents

From 24/01/2020 to 29/01/2020

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

4 Urban Villas, The Murrough, Wicklow Town A67 XV52, Ireland

Date of Registration: 02 January 2020.

I have taken the rustic natural shape of a tree trunk log and created a log light lampshade. It will have all the natural bark retained as part of the item, including mosses and imperfections/damages. They will be treated to retain their original look. Several wood species can be chosen. The underside has been bored out to fit the light bulb and the light bulb holding fixture. The top-side will also be bored out to accommodate cabling, light drivers and the balancing method as described in the drawing. The top bored piece will have a plate fitted to contain all the cables, driver, balancing method, with a hole for a single power cable.
