Official Notice

Patents Rules 1992 - Rule 77 and Rule 78

Office closed to the public from 13 March 2020 to 29 March 2020

Disruption arising from public health concerns and COVID 19

In accordance with Rules 77 and 78 of the Patents Rules 1992 the Controller hereby gives notice that as and from Friday 13 March 2020 until Sunday 29 March 2020 inclusive, the Intellectual Property Office of Ireland will not be open for the transaction business with the public. Consequently, these days are deemed to be "excluded days" for all purposes under the Acts and Rules.

Rule 78 provides that whenever the last day fixed by the Act, or by these Rules, for doing any act or thing at the Office falls on any of the days on which the Office is not open to the public (which days shall be excluded days for the purposes of the Act and these Rules), it shall be lawful to do any such act or thing on the first day which is not an excluded day next following such excluded day, or days, if two or more of them occur consecutively.

The Office will continue to maintain all of its online and e-services, including e-filing of applications, electronic fee payments and enquiries by telephone and email during normal opening hours.

Register of Patent Agents Examination in Law & Practice of Patents

In light of recent public health advice regarding COVID-19, a decision has been made to defer the Law & Practice of Trade Marks examination scheduled for 21st April and the Law & Practice of Patents examination scheduled for 22nd April.

It is proposed to re-schedule the examinations in the Autumn. The new examination dates will be advertised along with the deadline for receipt of applications in due course.

Applications for Patents

From 16/01/2020 to 26/02/2020

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

JAMES MARK Boxing bag device that mimics the activity of a real sparing partner 17 February 2020	20200035
JEVENS DESIGN LIMITED T/A IT TAPE HOOK AND LOOP SINGLE SIDE FASTENING TAPE 26 February 2020	S20200034

PALLIARE LIMITED A suturing device 20 February 2020	S20200031
RIEDEWALD FRANK Process and system for the recycling of composite, mixed and pure waste plastics 17 February 2020	20200029
TRIVIUMVET DESIGNATED ACTIVITY COMPANY AN ASSAY 20 February 2020	20200032

Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

- 87088** Implementing spin torque oscillator erasure prevention in microwave-assisted magnetic recording (MAMR) hard disk drives. Int. Cl. (2020.01) **G11B 5/00**.
Western Digital Technologies, Inc. 03 June 2016 (20160152) [United States of America-05 June 2015]
- 87089** A power converter. Int. Cl. (2020.01) **H02M 1/00; H02M 3/24; H02M 7/219**.
COMMERGY TECHNOLOGIES LIMITED 10 March 2006 (20060190)
-

Patents Granted Under European Patent Convention Designating Ireland

The Irish serial number appears first followed, respectively, by the proprietor's name, the date of filing of the application, the filing number and the European Patent Office publication number.

If the specification of the European patent was published in French or German the word 'French' or 'German', as appropriate, will appear as the last item of information.

Iris um Oifig Maoine Intleachtúla na hÉireann
Journal of the Intellectual Property Office of Ireland

Cuid II
Trádmharcanna

No. 2407

Wednesday, 18 March, 2020

NOTE: *The office does not guarantee the accuracy of its publications nor undertake any responsibility for errors or omissions or their consequences.*

In this Part of the Journal, unless the context otherwise requires, a reference to the 1963 Act means the Trade Marks Act, 1963, a reference to the 1963 Rules means the Trade Marks Rules, 1963, a reference to the 1996 Act means the Trade Marks Act, 1996 and a reference to the 1996 Rules means the Trade Marks Rules, 1996.

Official Notice

Patents Rules 1992 - Rule 77 and Rule 78

Office closed to the public from 13 March 2020 to 29 March 2020

Disruption arising from public health concerns and COVID 19

In accordance with Rules 77 and 78 of the Patents Rules 1992 the Controller hereby gives notice that as and from Friday 13 March 2020 until Sunday 29 March 2020 inclusive, the Intellectual Property Office of Ireland will not be open for the transaction business with the public. Consequently, these days are deemed to be "excluded days" for all purposes under the Acts and Rules.

Rule 78 provides that whenever the last day fixed by the Act, or by these Rules, for doing any act or thing at the Office falls on any of the days on which the Office is not open to the public (which days shall be excluded days for the purposes of the Act and these Rules), it shall be lawful to do any such act or thing on the first day which is not an excluded day next following such excluded day, or days, if two or more of them occur consecutively.

The Office will continue to maintain all of its online and e-services, including e-filing of applications, electronic fee payments and enquiries by telephone and email during normal opening hours.

Register of Trade Mark Agents

Examination in Law & practice of Trade Marks

In light of recent public health advice regarding COVID-19, a decision has been made to defer the Law & Practice of Trade Marks examination scheduled for 21st April and the Law & Practice of Patents examination scheduled for 22nd April.

It is proposed to re-schedule the examinations in the Autumn. The new examination dates will be advertised along with the deadline for receipt of applications in due course.

Application for Registration of marks published under Section 43(1) of the 1996 Act following acceptance

Notice is hereby given that Applications for the Registration of the undermentioned trade marks have been accepted.

Any person who desires to oppose the registration of these trade marks may within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

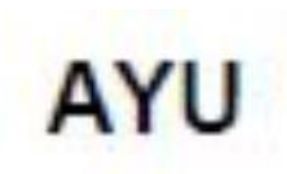

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the Applicant affording him an opportunity to withdraw his application for registration. In this way cost of opposition proceedings may be avoided.

Application to Alter Trade Mark(s) Registered under the 1996 Act

159214 Class 5. HYGEIA GROUP LTD.

The mark in the proposed altered form, is as shown hereunder:

238733 Classes 11 and 40. SCFI Limited.

The mark in the proposed altered form, is as shown hereunder:

AquaCritox

Any person desiring to oppose the application must give Notice of opposition to the Controller in accordance with rule 35(2) of the 1996 Rules within three months of the date of this Journal issue.

International Registrations under the Madrid Protocol seeking protection in the State.

Any person desiring to oppose the conferring of protection in the State to the undermentioned marks may, within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the holder affording him an opportunity to withdraw his application for protection of the International Registration in the State. In this way cost of opposition proceedings may be avoided.

protection of electricity transport and distribution networks, means of electricity production, sites for electricity consumption and means of energy storage; software for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to complex systems capable of aggregating networks for electricity transport, electricity distribution, means of electricity production, sites for electricity consumption and means of energy storage; software packages for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to complex systems capable of aggregating networks for electricity transport, electricity distribution, means of electricity production, sites for electricity consumption and means of energy storage; software for comparison of technological solutions, architectural principles or concepts (algorithms) for control and protection of complex systems capable of aggregating networks for electricity transport, electricity distribution, means of electricity production, sites for electricity consumption and means of energy storage; software packages for comparison of technological solutions, architectural principles or concepts (algorithms) for control and protection of complex systems capable of aggregating networks for electricity transport, electricity distribution, means of electricity production, sites for

electricity consumption and means of energy storage; software for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to connection architectures for means of electricity production; software packages for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to connection architectures for means of electricity production; software for comparison of technological solutions, architectural principles or concepts (algorithms) for control and protection of connection architectures for means of electricity production; software packages for comparison of technological solutions, principles of architecture or concepts (algorithms) for control and protection of connection architectures for means of electricity production; software for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to high or medium voltage, alternating (AC) or direct (DC) current electricity distribution and transport systems; software packages for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to high or medium voltage, alternating (AC) or direct (DC) current electricity distribution and transport

	networks; software for comparison of technological solutions, architectural principles or concepts (algorithms) for control and protection of high or medium voltage, alternating (AC) or direct (DC) current electricity distribution and transport networks; software packages for comparison of technological solutions, architectural principles or concepts (algorithms) for control and protection of high or medium voltage, alternating (AC) or direct (DC) current electricity distribution and transport networks.	
Class 42.	Software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software rental, software as a service (Saas) and operation of software in the fields of transport, distribution, production, electricity consumption and energy storage; software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software rental, software as a service (Saas) and operation of software in the field of electricity transport and distribution networks, means of electricity production, sites for electricity consumption and means of energy storage; software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software rental, software as a service (Saas) and operation of software for the study, modelling, optimization,	simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to electricity transport and distribution networks, means of electricity production, sites for electricity consumption and means of energy storage; software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software rental, software as a service (Saas) and operation of software for comparison of technological solutions, architecture principles or concepts (algorithms) for control and protection of electricity transport and distribution networks, means of electricity production, sites for electricity consumption and means of energy storage; software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software rental, software as a service (Saas) and operation of software for the study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to complex systems capable of aggregating networks for electricity transport, electricity distribution, means of electricity production, sites for electricity consumption and means of energy storage; software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software

rental, software as a service (Saas) and operation of software for comparison of technological solutions, architecture principles or concepts (algorithms) for control and protection of complex systems capable of aggregating networks for electricity transport, electricity distribution, means of electricity production, sites for electricity consumption and means of energy storage; software development (design), software editing, software installation, software maintenance, software update, software technical support and consulting, computer software rental, software as a service (Saas) and operation of software for the study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to connection architectures for means of electricity production; software development (design), software editing, software installation, maintenance with respect to software, software update, technical support and consulting with respect to software, computer software rental, software as a service (Saas) and operation of software for comparison of technological solutions, architecture principles or concepts (algorithms) for control and protection of connection architectures for means of electricity production; software development (design), software editing, software installation, maintenance with respect to software, software update, technical support and consulting with respect to software, computer software

rental, software as a service (Saas) and operation of software for study, modelling, optimization, simulation, technical, economic and environmental analysis, risk analysis, decision support and asset management relating to high or medium voltage, alternating (AC) or direct (DC) current electricity distribution and transport networks; software development (design), software editing, software installation, maintenance with respect to software, software update, technical support and consulting with respect to software, computer software rental, software as a service (Saas) and operation of software for comparison of technological solutions, architecture principles or concepts (algorithms) for control and protection of high or medium voltage, alternating current (AC) or direct current (DC) electricity distribution and transport networks.

Priority Date Claimed: 30 April 2019 France

Class 9. Apparatus and instruments
used for measuring, weighing

and evaluation in the field of science, laboratory, navigation, topography, meteorology, electricity, photography, cinematography; testing equipment, testing apparatus and instruments; barometers, ammeters, gas testing instruments, slide calipers, hygrometers, thermometers, voltmeters, microscopes, magnifying glass (optic), telescopes, periscopes; equipments used in laboratory; test tubes, measuring tubes; furnaces for laboratory experiments, furniture especially made for laboratories; illuminated advertisement boards, scoreboards, electric notice boards; instruments for recording, transmission or reproduction of sound or image (except communication instruments); radios, televisions, videos, cameras, audio apparatus and instruments, cinematographic instruments, remote control machines, headphones, loudspeakers, megaphones, diaphones, intercommunication apparatus, picture and slide projectors; data processing equipments; computers, computer software and hardware, printers for use with computers, laser printers for use with computers, scanners, cash registers, calculating machines, bar code readers, part and fittings for aforesaid goods, navigation apparatus for vehicles (on-board computers); magnetic and optic data carriers; cassettes, magnetic disks, floppy disks, CDs, films, exposed; all kinds of cameras (photography), parts and accessory of cameras, enlarging apparatus (photography); films (cinematography and

photography), X-ray films; antennas, satellite antennas, amplifiers and parts thereof; electric apparatus for remote ignition; mechanisms for coin, card and token operated apparatus; coin operated photography machines, ticket automats, weighing automats, automatic money withdraw machines; electronic components for machines and instruments; conductors, electronic circuits, integrated chips, photocells, diodes, transistors, circuit cards, crystal oscillators, condensers (capacitors), interface circuits, relays, liquid crystal displays, hybrid circuits, thermistor, converters, magnetic heads, magnetic deviators; communication machines; telephones, facsimile machines, telefax, telex machine, telegraph machines, wireless telephones, switchboards; electric machines for copying and reproduction; photocopiers, blueprint machines; counters; counters for water and electricity, gasometers, parking meters, timers, egg timers (sand glass); electronic and magnetic cards; telephone cards, banking cards, automatic cards to open and close doors, electronic cards for counters, electronic tickets; weighing machines; precision balances, scales, balances (steelyards); detectors, roentgen apparatus not for medical purposes, X-ray machines not for medical purposes, radiological apparatus for industrial purposes; life saving and protecting instruments; life jackets, life buoys, respiratory masks, diving suits, divers' masks, safety restraints, safety nets, protective clothes, gloves, glasses and helmets; signaling whistles and

lanterns, signaling buoys; eyeglasses; sunglasses, optical lenses, eyeglass and lens cases, parts and fittings of these goods; plugs, sockets, junction box, electric switches, circuit breakers, circuit closers, fuses, ballasts, starters, electric boards, elevator operating apparatus, clips, conduits, cable raceway, buttons, resistances, connectors (electric), instruments and apparatus for conducting, switching, transforming, accumulating, regulating or controlling electricity; adapters, chargers; electric doorbells, alarms (other than automobile alarms); sirens; cables and wires; all kinds of cables and wires used for electric and telephone lines, optical fibers, fiber optic cables; power suppliers; accumulators, solar batteries, batteries, continuous power suppliers; water level indicators for vehicles; fuel level indicators for vehicles; speed, oil, fuel and heat indicators, tachometers, taximeters; balancing apparatus; vehicle breakdown warning triangles, road signs (luminous or mechanical), mechanical or electrical equipment for traffic signalization, controlling equipment for road junctions, flashing lights; fire beaters; fire buckets; fire blankets, fire-extinguishing apparatus; radar apparatus, sonars, night vision apparatus; lightning conductors; spirit levels, meters, measures, plumb bobs; dosage dispensers; satellites for scientific purposes; electrolyzers; anodes, cathodes; filters for computer and television screens; remote control mechanisms for vehicle doors; magnets, decorative magnets;

ear plugs; solar energy collectors and devices.

Class 11. Lighting apparatus for indoors, outdoors and vehicles; lamps, bulbs, flashlights, chandelier, lamp glasses, electric light sockets, electric lamps; electric bulbs, headlamps, stopping lamps for vehicles, headlights for automobiles; back-up lights for land vehicles, vehicle reflectors, reflector lamps, apparatus for heating and steam production installations; boilers for stoves, central heating and natural gas installations as part of heating installation, steam boilers, exchangers, burners, apartment heating apparatus, water heaters used also as apartment heating installations, water heaters, radiators, heat pumps, electrical water boilers, solid, liquid and gas fuel and electric stoves, cook stoves, climatization and air-conditioning devices; air conditioners, fans (air blowers), ventilators, air conditioners including those for vehicles, air disinfecting and cleaning instruments and apparatus for places and parts and accessories thereof, cooling apparatus; refrigerators, deep-freezers, ice boxes, ice machines and devices, electric and gas apparatus, machines and devices used for cooking and boiling; sandwich grilling machines, toasters, deep fryers, grills, barbecue grills, ovens, stoves, pop-corn machines, autoclaves, coffee and tea machines, water boilers (kettles) and parts thereof, shower tubs, bidets, bath cubicles, shower cubicles, urinals, toilet seats, toilet bowls, sinks, wash basins, parts and fittings for the aforementioned, taps for

water and gas installations, thermostatic valves as parts of heating installation, level control valves for tanks, regulators, cocks for automatic watering installations, shower handles and hoses, pipes as parts of sanitary installation, watering machines for agricultural purposes, water softening apparatus, water purifying apparatus, water purifying installations, sewage purifying installations, electric hair dryers, hot air blowers, hand drying apparatus, face saunas, solarium devices; electrical coverlets and electrical quilts not for medical purposes, electrically heated pillows, not for medical use, electrical or non-electrical foot heaters, hot water bottles (thermophore), lighters used in kitchen, lighters as parts of heating and cooking apparatus, filters and filtration apparatus for aquariums, industrial type ovens, industrial type drying installations, industrial type cooling installations, cooling towers, cold air depots, nuclear reactors, dust-elimination and dust-collection installations for industrial purposes, incandescent burners, acetylene burners and generators, pasteurisers and sterilizers, laundry dryers, cupola furnaces, fuel saving devices for the goods included in this class, filters for apparatus used at home, filters as parts of industrial equipment included in this class, heating apparatus for defrosting windows of vehicles.

Changes/Corrections in the International Register

- 1411878** Advertised in Journal No. 2395 on 02 October 2019. Limitation received from the International Bureau amending classes 9, 35, 38 and 42 as follows:

Class 09, Data processing equipment; computers; software; application software for cloud computing services; downloadable electronic publications; downloadable electronic reports; downloadable electronic questionnaires; databases (electronic); database management software; all of the aforesaid in the field of information technology consultancy provided to the financial services industry, in particular, the asset management industry and none in relation to healthcare projects or providers.

Class 35, Business management and organization consultancy; commercial business appraisal; compilation of statistics; management and compilation of computerized databases; systematization of information into a database; updating and maintenance of data in computer databases; arranging subscriptions to information databases via telecommunications networks; business information services provided by access to a computer database; providing commercial information from on-line databases; evaluations relating to business matters; benchmarking services [evaluation of business organization practices]; all of the aforesaid in the field of information technology consultancy provided to the financial services industry, in particular, the asset management industry and none in relation to healthcare projects or providers

Class 38, Transmission of messages; transmission of digital files; provision of access to platforms on the Internet; telecommunication services provided via Internet platforms and portals; provision of access to Internet platforms for the exchange of documents; telecommunication services provided via platforms and portals on the Internet and other media; provision of access to databases; transmission of database information via telecommunication networks; electronic exchange of data stored in databases accessible via telecommunication networks; provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; all of the aforesaid in the field of information technology consultancy provided to the financial services industry, in particular, the asset management industry and none in relation to healthcare projects or providers.

Class 42, Design and development of software; software consultancy; programming of software for Internet platforms; hosting of platforms on the Internet; hosting of communication

platforms on the Internet; hosting of transaction platforms on the Internet; maintenance of database software; programming of software for e-commerce platforms; cross-platform conversion of digital content into other forms of digital content; platform as a service (PaaS); computer database design and development; hosting of databases; design and development of operating software for access to a computer network in the cloud [cloud computing] as well as use thereof; rental of operating software for access to a computer network in the cloud [cloud computing] as well as use thereof; temporary online provision of non-downloadable operating software for accessing a computer network in the cloud [cloud computing] as well as use thereof; providing virtual computer environments via cloud computing; all of the aforesaid in the field of information technology consultancy provided to the financial services industry, in particular, the asset management industry and none in relation to healthcare projects or providers.
