Ending of period of “excluded days”

Patents Rules 1992 - Rule 77 and Rule 78

Trade Mark Rules 1996 – Rule 70.

Industrial Design Regulations 2002 – Regulation 50.

As a consequence of the COVID 19 pandemic, the Controller of Intellectual Property had deemed the days between 13 March and 2 June 2020 as “excluded days” for all purposes under the Acts and Rules. The period of “excluded days” ended on 2 June.

All users, rights holders, businesses and IP professionals are therefore asked to continue working to existing deadlines and payment due dates and to ensure that any matters with deadlines which were left in abeyance during the “excluded days” period are attended to immediately. The Intellectual Property Office of Ireland (IPOI) will extend time periods where the legislation allows and where the Controller has discretionary powers, he will consider requests for extensions of time as favourably as possible, on a case-by-case basis.

The IPOI premises will continue to remain closed to the public and to personal callers until further notice. IPOI staff working remotely will continue to maintain its online and e-services, including e-filing of applications, electronic fee payments and will deal with email enquiries during normal working hours. Clients and customers are asked to use our online e-filing and payment services, to communicate with us by email whenever possible and to note that there may be delays in dealing with and responding to postal communications. Please note that IPOI staff are not able to deal with telephone enquiries. All enquiries should be made by email and directed to the following email address until further notice:

Register of Patent Agents Examination in Law & Practice of Patents

In light of recent public health advice regarding Covid-19, a decision has been made to defer the Law & Practice of Trade Marks examination scheduled for 21st April and the Law & Practice of Patents examination scheduled for 22nd April.

It is proposed to re-schedule the examinations in the Autumn. The new examination dates will be advertised along with the deadline for receipt of applications in due course.

Applications for Patents

From 08/05/2020 to 20/05/2020

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

The design presented here is a device designed to assist in retrieving golf balls from the hole without the need to reach into the hole or touch the flag pole. The design consists of three elements (a) the lifter, (b) the shaft and (c) the base. The unit is placed over the flag pole, which runs through the centre of the (b) shaft and sits into the hole, with the (c) base resting at the bottom of the hole. The (a) lifter allows the golfer to catch the unit with the head of their putter; when the unit is raised it is designed to release the ball back onto the green by means of the conical shaped (c) base. The product is manufactured from metal and finished in a weather resistant oven baked epoxy paint to specification. The tip of the (a) lifter is finished with silicon/EPDM caps to prevent damage to putter or lifter.
