Official Notice

Resumption of telephone enquiry service

Due to the COVID 19 pandemic, the Intellectual Property Office of Ireland had been unable to deal with personal callers or telephone enquiries since 13 March 2020. While the Office remains unable to facilitate personal callers to its premises until further notice, telephone enquiries are being accepted on 00 353 56 7720111 beginning Tuesday 23 June between 9.30 a.m. until 4 p.m. Monday to Friday.

Clients and customers are asked to use our online e-filing and payment services, to continue to communicate with us by email whenever possible and to note that there may be delays in dealing with telephone calls and responding to postal communications because staff are working remotely.

Telephone enquiries: 00 353 56 7720111

E-mail enquiries: ipinfo@ipoi.gov.ie

Ending of period of “excluded days”

Patents Rules 1992 - Rule 77 and Rule 78

Trade Mark Rules 1996 – Rule 70.

Industrial Design Regulations 2002 – Regulation 50.

As a consequence of the COVID 19 pandemic, the Controller of Intellectual Property had deemed the days between 13 March and 2 June 2020 as “excluded days” for all purposes under the Acts and Rules. The period of “excluded days” ended on 2 June.

All users, rights holders, businesses and IP professionals are therefore asked to continue working to existing deadlines and payment due dates and to ensure that any matters with deadlines which were left in abeyance during the “excluded days” period are attended to immediately. The Intellectual Property Office of Ireland (IPOI) will extend time periods where the legislation allows and where the Controller has discretionary powers, he will consider requests for extensions of time as favourably as possible, on a case-by-case basis.

The IPOI premises will continue to remain closed to the public and to personal callers until further notice. IPOI staff working remotely will continue to maintain its online and e-services, including e-filing of applications, electronic fee payments and will deal with email enquiries during normal working hours. Clients and customers are asked to use our online e-filing and payment services, to communicate with us by email whenever possible and to note that there may be delays in dealing with and responding to postal communications. Please note that IPOI staff are not able to deal with telephone enquiries. All enquiries should be made by email and directed to the following email address until further notice:

Register of Patent Agents**Examination in Law & Practice of Patents**

Following the release by the government of a “green” list of countries from which passengers are not required to quarantine on arrival in Ireland, and in consideration of candidates from other countries not on the “green” list it has been decided to further postpone the law and practice of patents examination which had been set for 9 September until later in the year, (date to be confirmed).

More information will be provided in early October, but candidates are advised not to make travel arrangements before then.

All applications and fees received to date will be valid for the new exam date, however requests for refunds and deferrals will be accommodated.

This proposal is subject to change pending further government recommendations and it is therefore advisable to keep a regular check on our website for updates.

Applications for Patents

From 03/07/2020 to 16/07/2020

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

Official Notice

Resumption of telephone enquiry service

Due to the COVID 19 pandemic, the Intellectual Property Office of Ireland had been unable to deal with personal callers or telephone enquiries since 13 March 2020. While the Office remains unable to facilitate personal callers to its premises until further notice, telephone enquiries are being accepted on 00 353 56 7720111 beginning Tuesday 23 June between 9.30 a.m. until 4 p.m. Monday to Friday.

Clients and customers are asked to use our online e-filing and payment services, to continue to communicate with us by email whenever possible and to note that there may be delays in dealing with telephone calls and responding to postal communications because staff are working remotely.

Ending of period of “excluded days”*Patents Rules 1992 - Rule 77 and Rule 78**Trade Mark Rules 1996 – Rule 70.**Industrial Design Regulations 2002 – Regulation 50.*

As a consequence of the COVID 19 pandemic, the Controller of Intellectual Property had deemed the days between 13 March and 2 June 2020 as “excluded days” for all purposes under the Acts and Rules. The period of “excluded days” ended on 2 June.

All users, rights holders, businesses and IP professionals are therefore asked to continue working to existing deadlines and payment due dates and to ensure that any matters with deadlines which were left in abeyance during the “excluded days” period are attended to immediately. The Intellectual Property Office of Ireland (IPOI) will extend time periods where the legislation allows and where the Controller has discretionary powers, he will consider requests for extensions of time as favourably as possible, on a case-by-case basis.

The IPOI premises will continue to remain closed to the public and to personal callers until further notice. IPOI staff working remotely will continue to maintain its online and e-services, including e-filing of applications, electronic fee payments and will deal with email enquiries during normal working hours. Clients and customers are asked to use our online e-filing and payment services, to communicate with us by email whenever possible and to note that there may be delays in dealing with and responding to postal communications. Please note that IPOI staff are not able to deal with telephone enquiries. All enquiries should be made by email and directed to the following email address until further notice:

Register of Trade Mark Agents**Examination in Law & practice of Trade Marks**

Following the release by the government of a “green” list of countries from which passengers are not required to quarantine on arrival in Ireland, and in consideration of candidates from other countries not on the “green” list it has been decided to further postpone the law and practice of trade marks examination which had been set for 8 September until later in the year, (date to be confirmed).

More information will be provided in early October, but candidates are advised not to make travel arrangements before then.

All applications and fees received to date will be valid for the new exam date but requests for refunds and deferrals will be accommodated.

This proposal is subject to change pending further government recommendations and it is therefore advisable to keep a regular check on our website for updates.

Application for Registration of marks published under Section 43(1) of the 1996 Act following acceptance

Notice is hereby given that Applications for the Registration of the undermentioned trade marks have been accepted.

Any person who desires to oppose the registration of these trade marks may within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the Applicant affording him an opportunity to withdraw his application for registration. In this way cost of opposition proceedings may be avoided.

Class 4. Electricity; gas; fuels; gas fuels; gas mixtures; fossil fuels; oil; industrial oils; electrical energy; wind generated electricity; biomass fuels; electrical energy from renewable sources.

Class 6.	Common metals and their alloys; metallic building materials; transportable buildings of metal; ironmongery, small items of metal hardware; pipes and tubes of metal.	electronic smart apparatus for monitoring and controlling home and business energy use and conservation; apparatus for monitoring generation of energy; electricity meters; devices for tracking energy use; gas flow meters; water meters; metering devices; measuring apparatus and instruments; data carriers, data storage media and data processing equipment; LCD and LED displays; magnetic data carriers; electronic control devices, including time switches, radio controlled switches, remote control switches; alarms; audiovisual teaching apparatus; batteries; electric batteries; battery boxes; battery chargers; telephones and telephone and broadband cables; credit and debit cards; encoded cards; CD-Roms; computer peripheral devices; computer hardware, software and firmware; computer programs and computer software; computer databases; electrical converters; smoke detectors; carbon monoxide detectors; electricity distribution boxes and consoles; branch and distribution boxes, electrical cables, conductors, conduits, connectors and switches; fuses and fuse wire; electricity mains apparatus; electricity junction boxes; junction sleeves for electric cables; plugs, sockets and other electric connections and contacts; telecommunication apparatus and instruments; smart cards; electricity switchboxes; electricity transformers; electric wires; intercommunication apparatus; lasers; optical fibres; fibre optic cables; electric locks; sheaths for electric cables; computer networking and data
Class 7.	Machine tools; machines for use in the generation, transmission, distribution, supply and conservation of energy, including wind energy; machines for installing pipes; machines for drilling; engines (except for land vehicles); machine motors; motors for wind turbines; generators; pumps and compressors; fuel dispensing pumps; wind turbines; turbines for power generation; wind power machines and windmills for electricity generation; vertical axis wind turbines; mill towers and masts, blades, blade hubs, gears, breaks and transmissions devices, being parts of turbines and wind power machines; electricity generators; hydroelectric installations for generating electricity; engines for the generation of electricity; power generating apparatus; electricity generating installations (power stations); parts and fittings for all of the aforesaid goods.	
Class 9.	Scientific, surveying, optical, signalling and measuring apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission and reproduction of sound and images; data processing equipment; apparatus for monitoring consumption of utilities such as electricity, water and gas; smart meters; in home display (IHD) devices; electric and	

communication apparatus and equipment; computer networks; modems; network routers; network hubs; network cabling; network servers; network switches; network management software; wide area networks; local area networks; computer networking hardware; network management control apparatus; software downloadable from the internet for computers, mobile phones and personal communication devices; electronic publications provided on-line from databases or the Internet; computer software platforms; mobile phone applications; downloadable electronic articles, files and photographs; downloadable electronic media; downloadable electronic media for telephones; computer software to enable uploading, posting, downloading, showing, displaying, sharing or otherwise providing electronic media or information over the Internet or other communications networks; computer software for visually representing utility consumption; videos, images, text and information provided by on-line delivery and by way of the Internet or the world-wide web or other communications network; broadband installations; CDs, DVDs and MP3s; wireless connectivity platforms; telecommunications networks; portable and handheld digital electronic devices for monitoring and controlling the consumption of utilities; electronic devices for controlling heating, cooling and ventilation systems; computer hardware and computer software used to enable wireless connection

between computers, computer peripherals, computer hardware devices, consumer, commercial and industrial electronics and cellular telephones; computer software and hardware for providing wireless connectivity for machine to machine communication; computer software and hardware for providing wireless connectivity for the internet of things; sensors; motion sensors; temperature sensors; touch sensors; flood sensors; computer software for controlling the operation of electrical appliances; thermostats; computer software for processing and reporting data from electricity, water, gas and other utility monitoring modules and wirelessly controlling domestic and commercial apparatus and appliances in order to regulate or reduce said consumption; security cameras; security alarms; temperature and humidity measuring apparatus, and temperature and humidity indicators; electric switches; electric and electronic timers; solar panels for electricity generation; photovoltaic solar modules and panels; photovoltaic installations and apparatus for generating electricity; charging stations for electric vehicles; parts and fittings for all the aforesaid goods.

Class 11. Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; fuel processing installation; waste fuel processing installation; air conditioning apparatus; central heating boilers; electric boilers; central heating systems and boilers; condensing boilers and gas

	fires; micro combined heat and power systems; gas regulators; radiators; solar heating panels and apparatus; biomass fuelled heaters; water heaters; installations, units and apparatus for treatment of water; light bulbs; electric heaters; electric storage heaters; thermostatic valves; parts and fittings for the aforesaid goods.		of information into computer databases; on-line data processing services, business consultancy; business project management; compilation or provision of business or trade information; preparation of reports; business project management services; setting up, organisation, administration, operation and supervision of customer loyalty schemes and incentive and promotional schemes; utility meter reading for billing purposes; gas and electricity meter reading for billing purposes; business and advisory services relating to the purchase and sale of gas and electricity; retail and wholesale services connected with the sale of electricity and gas; business project management in relation to the generation, conservation, storage, and distribution of energy; promotional, advertising, marketing and publicity services; market analysis; publication of publicity texts; preparation of publicity materials; promoting the use of renewable energy; computerised business information retrieval; provision of consumer advice and information relating to energy and climate change; consultancy, information and advisory services relating to all of the aforesaid services.
Class 12.	Electric vehicles; electrically powered vehicles; parts and fittings for all of the aforesaid goods.		
Class 16.	Printed matter and publications; books; manuals; brochures; magazines; handbooks; newsletters; stationery; calendars; printed signs and posters; stickers; notepads; notebooks; pens; pencils; instructional and teaching material.		
Class 17.	Insulating materials; non-metallic pipes; flexible pipes; insulators for cables; insulators for electric mains; clips of rubber for cables; electrical and thermal insulators, draught excluder strips; junctions and reinforcing materials; junctions and reinforcing materials all for pipes; junctions not of metal for pipes; processed artificial resins; non-metallic connectors and seals for fuel lines; parts and fittings for all the aforesaid goods.		
Class 19.	Non-metallic building materials and products; timber joinery for use in building; non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal.	Class 36.	Financial services; insurance services; insurance and financial services relating to electricity, gas and/or energy; credit and debit card services; financial and insurance services relating to electric vehicles; financial and insurance services relating to telecommunication apparatus and systems; advisory services relating to credit; arranging of credit; consumer credit services; credit agency
Class 35.	Computerised database management; computerised file management; database management; data verification; data entry and data processing; compilation		

	services; credit assessment services; financial services relating to the use of energy efficient gas and electric services and appliances; awarding of grants in relation to the use of energy efficient gas and electric services and appliances; provision of financial funding and investment of projects relating to energy production, supply and distribution including renewable energy; project financing; credit counselling services; consultancy relating to financing of energy projects; financial risk management; financial consultancy in the energy sector; financial valuation relating to heating costs; financial information for investors; venture capital services; economic and financial evaluation of renewable energy projects; financing renewable energy projects; creation and issue of financial instruments based on the creation, sale, transmission and processing of electricity or fuels; energy trading; trading of electricity and gas as financial commodities; commodity trading and brokerage; financial sponsorship; fund management and investment services for community projects; information and advisory services relating to all the aforesaid services.	installations; construction, repair and maintenance of buildings; installation, repair and maintenance of communications network apparatus and instruments, communications systems, electrical and gas installations and apparatus; building construction supervision; construction, repair and maintenance of bridges, roads, tunnels, railways, underground and other structures; installation, repair and maintenance of railway networks, signals, overhead lines and points; construction, repair and maintenance of electricity transmission and distribution networks; building project management; building refurbishment; installation, maintenance and repair of street lighting installations; installation, maintenance and repair of highway and/or motorway lighting installations; installation of pipelines; pipeline laying; pipeline construction; pipeline repair and maintenance; installation, repair and maintenance of electrical generation equipment, electrical distribution equipment, electrical apparatus and electrical goods; civil engineering construction; heating contractor services; central heating installation, maintenance and repair; heating equipment installation and repair; installation, repair and maintenance of boilers and radiators; plumbing services; electrical wiring services; refurbishment of boilers and heating apparatus; repair, maintenance and installation of gas and electricity supply equipment; repair, maintenance and installation of telecommunication apparatus
Class 37.	Gas installation; installation of electricity generators; repair of gas supply systems; testing for faults and damage in pipes and pipelines; beneath ground construction work relating to gas supply pipelines; building and construction services; construction, repair and maintenance services for electrical, gas and water infrastructures and	

Class 38.	and equipment and communications network apparatus and instruments; construction, installation, maintenance and repair of electrical charging stations and electric charging points; construction, erection, installation, maintenance and repair of turbines, offshore turbines, wind mills, power plants, wind turbines, wind farms and onshore and offshore electricity substations; installation of geothermal energy systems and construction of geothermal power plants; construction of geothermal power plants and energy installations; construction of hydroelectric power stations and hydropower systems; installation, maintenance and repair of solar panels, solar energy apparatus, solar thermal installations and photovoltaic apparatus; construction of utility solar installations; construction and maintenance of photovoltaic power stations; insulation services; building insulation; retrofitting of insulation; advisory and consultancy services relating to all of the aforesaid services. Communications services; telecommunication services; telephony services; telephone line rental; broadband data transmission; broadband communication services; operating call centres; electronic mail services; communications by fibre optic networks; fibre optic telecommunication services; internet based telecommunication services; telecommunication network services; providing access to computer networks; data transmission services over computer networks; providing internet access; internet	provider services; message sending services; provision of telecommunications access and links to computer databases and the Internet; providing access to databases on the internet; providing access to MP3 websites on the Internet; provision of wireless telecommunications via electronic communication networks; electronic sending of data via the Internet; electronic transmission of audio and video files via communications networks; provision of access time to web-sites featuring multimedia materials; providing users with access time to electronic communications networks; communication of information by electronic means; communication of information between apparatus for monitoring and displaying consumption of utilities and the internet; consultancy, information and advisory services relating to all the aforesaid services. Class 39. Distribution, storage and supply of electricity, gas, power, water and fuels; heat supply (distribution); gas and electricity storage; distribution of energy; distribution of renewable energy; transportation and delivery of gas and gaseous fuels; operation of gas transportation networks; public utility services in the nature of electricity, water, energy and natural gas distribution; water distribution; distribution and supply of electricity to charging points for electric vehicles; transmission of electricity; provision of facilities for the distribution and supply of electricity to electric battery charging points, charging posts and battery charging points for

electronic media for telephones; computer software to enable uploading, posting, downloading, showing, displaying, sharing or otherwise providing electronic media or information over the Internet or other communications networks; computer software for visually representing utility consumption; videos, images, text and information provided by on-line delivery and by way of the Internet or the world-wide web or other communications network; broadband installations; CDs, DVDs and MP3s; wireless connectivity platforms; telecommunications networks; portable and handheld digital electronic devices for monitoring and controlling the consumption of utilities; electronic devices for controlling heating, cooling and ventilation systems; computer hardware and computer software used to enable wireless connection between computers, computer peripherals, computer hardware devices, consumer, commercial and industrial electronics and cellular telephones; computer software and hardware for providing wireless connectivity for machine to machine communication; computer software and hardware for providing wireless connectivity for the internet of things; sensors; motion sensors; temperature sensors; touch sensors; flood sensors; computer software for controlling the operation of electrical appliances; thermostats; computer software for processing and reporting data from electricity, water, gas and other utility monitoring modules and wirelessly controlling

	domestic and commercial apparatus and appliances in order to regulate or reduce said consumption; security cameras; security alarms; temperature and humidity measuring apparatus, and temperature and humidity indicators; electric switches; electric and electronic timers; solar panels for electricity generation; photovoltaic solar modules and panels; photovoltaic installations and apparatus for generating electricity; charging stations for electric vehicles; parts and fittings for all the aforesaid goods.	Class 17. Insulating materials; non-metallic pipes; flexible pipes; insulators for cables; insulators for electric mains; clips of rubber for cables; electrical and thermal insulators, draught excluder strips; junctions and reinforcing materials; junctions and reinforcing materials all for pipes; junctions not of metal for pipes; processed artificial resins; non-metallic connectors and seals for fuel lines; parts and fittings for all the aforesaid goods.
Class 11.	Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; fuel processing installation; waste fuel processing installation; air conditioning apparatus; central heating boilers; electric boilers; central heating systems and boilers; condensing boilers and gas fires; micro combined heat and power systems; gas regulators; radiators; solar heating panels and apparatus; biomass fuelled heaters; water heaters; installations, units and apparatus for treatment of water; light bulbs; electric heaters; electric storage heaters; thermostatic valves; parts and fittings for the aforesaid goods.	Class 19. Non-metallic building materials and products; timber joinery for use in building; non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal.
Class 12.	Electric vehicles; electrically powered vehicles; parts and fittings for all of the aforesaid goods.	Class 35. Computerised database management; computerised file management; database management; data verification; data entry and data processing; compilation of information into computer databases; on-line data processing services, business consultancy; business project management; compilation or provision of business or trade information; preparation of reports; business project management services; setting up, organisation, administration, operation and supervision of customer loyalty schemes and incentive and promotional schemes; utility meter reading for billing purposes; gas and electricity meter reading for billing purposes; business and advisory services relating to the purchase and sale of gas and electricity; retail and wholesale services connected with the sale of electricity and gas; business project management in relation to the

Class 36.	Financial services; insurance services; insurance and financial services relating to electricity, gas and/or energy; credit and debit card services; financial and insurance services relating to electric vehicles; financial and insurance services relating to telecommunication apparatus and systems; advisory services relating to credit; arranging of credit; consumer credit services; credit agency services; credit assessment services; financial services relating to the use of energy efficient gas and electric services and appliances; awarding of grants in relation to the use of energy efficient gas and electric services and appliances; provision of financial funding and investment of projects relating to energy production, supply and distribution including renewable energy; project financing; credit counselling services; consultancy relating to financing of energy projects; financial risk management; financial consultancy in the energy sector; financial valuation relating to heating costs; financial information for investors; venture capital services; economic and	Class 37.	Gas installation; installation of electricity generators; repair of gas supply systems; testing for faults and damage in pipes and pipelines; beneath ground construction work relating to gas supply pipelines; building and construction services; construction, repair and maintenance services for electrical, gas and water infrastructures and installations; construction, repair and maintenance of buildings; installation, repair and maintenance of communications network apparatus and instruments, communications systems, electrical and gas installations and apparatus; building construction supervision; construction, repair and maintenance of bridges, roads, tunnels, railways, underground and other structures; installation, repair and maintenance of railway networks, signals, overhead lines and points; construction, repair and maintenance of electricity transmission and distribution networks; building project management; building refurbishment; installation, maintenance and repair of street lighting

installations; installation, maintenance and repair of highway and/or motorway lighting installations; installation of pipelines; pipeline laying; pipeline construction; pipeline repair and maintenance; installation, repair and maintenance of electrical generation equipment, electrical distribution equipment, electrical apparatus and electrical goods; civil engineering construction; heating contractor services; central heating installation, maintenance and repair; heating equipment installation and repair; installation, repair and maintenance of boilers and radiators; plumbing services; electrical wiring services; refurbishment of boilers and heating apparatus; repair, maintenance and installation of gas and electricity supply equipment; repair, maintenance and installation of telecommunication apparatus and equipment and communications network apparatus and instruments; construction, installation, maintenance and repair of electrical charging stations and electric charging points; construction, erection, installation, maintenance and repair of turbines, offshore turbines, wind mills, power plants, wind turbines, wind farms and onshore and offshore electricity substations; installation of geothermal energy systems and construction of geothermal power plants; construction of geothermal power plants and energy installations; construction of hydroelectric power stations and hydropower systems; installation, maintenance and repair of solar panels, solar

energy apparatus, solar thermal installations and photovoltaic apparatus; construction of utility solar installations; construction and maintenance of photovoltaic power stations; insulation services; building insulation; retrofitting of insulation; advisory and consultancy services relating to all of the aforesaid services.

Class 38. Communications services; telecommunication services; telephony services; telephone line rental; broadband data transmission; broadband communication services; operating call centres; electronic mail services; communications by fibre optic networks; fibre optic telecommunication services; internet based telecommunication services; telecommunication network services; providing access to computer networks; data transmission services over computer networks; providing internet access; internet provider services; message sending services; provision of telecommunications access and links to computer databases and the Internet; providing access to databases on the internet; providing access to MP3 websites on the Internet; provision of wireless telecommunications via electronic communication networks; electronic sending of data via the Internet; electronic transmission of audio and video files via communications networks; provision of access time to web-sites featuring multimedia materials; providing users with access time to electronic communications networks; communication of information by electronic means; communication of information

	between apparatus for monitoring and displaying consumption of utilities and the internet; consultancy, information and advisory services relating to all the aforesaid services.		geothermal energy; generation of energy via wind farms; generation of electricity from solar energy; production of hydroelectric power; treatment of industrial waste and hazardous products, liquids and gases; recycling services; recycling and transformation of waste products; material treatment of biomass; extraction, conversion and treatment of bi-products from power stations and cooling towers; services for the treatment of carbon emissions (carbon capture); carbon capture and storage services; hydrogen powered electricity generation; hire of electricity generators; information, consultancy and advisory services relating to the above.
Class 39.	Distribution, storage and supply of electricity, gas, power, water and fuels; heat supply (distribution); gas and electricity storage; distribution of energy; distribution of renewable energy; transportation and delivery of gas and gaseous fuels; operation of gas transportation networks; public utility services in the nature of electricity, water, energy and natural gas distribution; water distribution; distribution and supply of electricity to charging points for electric vehicles; transmission of electricity; provision of facilities for the distribution and supply of electricity to electric battery charging points, charging posts and battery charging points for electric vehicles; grid energy storage; large scale energy storage; large scale battery storage; distributed heat storage; consultancy, information and advisory services relating to all the aforesaid services.	Class 41.	Education; provision of training; education, teaching and training services, particularly in relation to the generation and consumption of utilities such as electricity, water and gas; provision of training courses; arranging and conducting of conferences, exhibitions, seminars and workshops; educational information provided online from a computer database or the internet publishing services, including online electronic publications, publication of books, booklets, periodical reviews, texts, training manuals, pamphlets, fact sheets and circulars; publication of material which can be accessed from databases or from the internet; production of videotape films, DVDs, compact discs (audio-video) and other resources the content of which is for educational and/or training purposes; educational information provided on-line from a computer database or
Class 40.	Production of energy; production of gas and electricity; power generation; electricity generation; generation of energy from renewable sources; generation of electricity from wind, solar and wave energy; leasing of energy generating equipment; generation of electricity from geothermal energy; water treatment services; fuel refining; processing of fuel materials; sewage treatment services; treatment of effluent; refinement of fuel materials; generation of electricity from		

	the internet; education services relating to environmental and energy efficiency matters; education services relating to energy, energy conservation and energy efficiency; advisory and consultancy services relating to all the aforesaid services.		services relating to energy management and efficiency; mechanical engineering services; computer programming; electrical engineering services; computerised information storage and dissemination and retrieval services; computerised business information, storage; testing of cable installations for communications apparatus and for electric power distribution; building inspection services (surveying); land and real estate surveying; surveying and quantity surveying; civil and specialist engineering services; design and development of computer hardware and software; design and development of energy management software; design and development of software for the energy industry; electrical safety research; technical information services in respect of electrical charging stations and charging points; certifying as to the energy efficiency of buildings and other structures; technology analysis; technical project analysis; planning of renewable energy projects; research relating to wind and wind power including onshore and offshore wind farms; research relating to hydroelectricity systems; advisory and consultancy services relating to all of the aforesaid services.
Class 42.	Scientific and industrial research and development; scientific and technological services and research and design relating to the supply of gas and electricity; safety testing of gas and electric appliances, pipes, pipelines, pipework, transmission lines, overhead lines and apparatus and instruments utilising gas and electricity; testing of gas and electricity generating plants; testing of water distribution pipelines; testing of hydroelectric systems and hydropower systems; safety testing of wind farms; testing for faults and damage in pipes and pipelines; professional consultancy relating to the energy efficiency of buildings and other structures; research in the field of energy and renewable energy; development of energy and power management systems; research and development into hydroelectricity; research of carbon capture and storage; research in the field of environmental protection and climate change; auditing energy consumption of buildings; energy conservation management; preparation of reports on energy consumption of buildings; auditing of energy consumption and of efficiency of operation of appliances and safety checking of appliances and pipework; advisory services relating to energy efficiency; advisory, information and consultancy		Class 45. Preparation of regulations for electricity and gas installations and appliances; reviewing standards and practices in the supply of gas and electricity to ensure compliance with laws and regulations; consultancy on regulations of the safety of gas and electricity supply equipment and apparatus;

safety evaluation of boilers, central heating appliances and systems; safety evaluation of apparatus for producing and distributing gas and electricity; certifying as to the energy efficiency of buildings; provision of advice and information regarding regulations and laws relating to the distribution and storage of energy, fuel and power; health and safety risk assessment services.

Class 4. Electricity; gas; fuels; gas fuels; gas mixtures; fossil

fuels; oil; industrial oils; electrical energy; wind generated electricity; biomass fuels; electrical energy from renewable sources.

Class 6. Common metals and their alloys; metallic building materials; transportable buildings of metal; ironmongery, small items of metal hardware; pipes and tubes of metal.

Class 7. Machine tools; machines for use in the generation, transmission, distribution, supply and conservation of energy, including wind energy; machines for installing pipes; machines for drilling; engines (except for land vehicles); machine motors; motors for wind turbines; generators; pumps and compressors; fuel dispensing pumps; wind turbines; turbines for power generation; wind power machines and windmills for electricity generation; vertical axis wind turbines; mill towers and masts, blades, blade hubs, gears, breaks and transmissions devices, being parts of turbines and wind power machines; electricity generators; hydroelectric installations for generating electricity; engines for the generation of electricity; power generating apparatus; electricity generating installations (power stations); parts and fittings for all of the aforesaid goods.

Class 9. Scientific, surveying, optical, signalling and measuring apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission and reproduction of sound and images; data processing equipment; apparatus for

monitoring consumption of utilities such as electricity, water and gas; smart meters; in home display (IHD) devices; electric and electronic smart apparatus for monitoring and controlling home and business energy use and conservation; apparatus for monitoring generation of energy; electricity meters; devices for tracking energy use; gas flow meters; water meters; metering devices; measuring apparatus and instruments; data carriers, data storage media and data processing equipment; LCD and LED displays; magnetic data carriers; electronic control devices, including time switches, radio controlled switches, remote control switches; alarms; audiovisual teaching apparatus; batteries; electric batteries; battery boxes; battery chargers; telephones and telephone and broadband cables; credit and debit cards; encoded cards; CD-Roms; computer peripheral devices; computer hardware, software and firmware; computer programs and computer software; computer databases; electrical converters; smoke detectors; carbon monoxide detectors; electricity distribution boxes and consoles; branch and distribution boxes, electrical cables, conductors, conduits, connectors and switches; fuses and fuse wire; electricity mains apparatus; electricity junction boxes; junction sleeves for electric cables; plugs, sockets and other electric connections and contacts; telecommunication apparatus and instruments; smart cards; electricity switchboxes; electricity transformers; electric wires; intercommunication

apparatus; lasers; optical fibres; fibre optic cables; electric locks; sheaths for electric cables; computer networking and data communication apparatus and equipment; computer networks; modems; network routers; network hubs; network cabling; network servers; network switches; network management software; wide area networks; local area networks; computer networking hardware; network management control apparatus; software downloadable from the internet for computers, mobile phones and personal communication devices; electronic publications provided on-line from databases or the Internet; computer software platforms; mobile phone applications; downloadable electronic articles, files and photographs; downloadable electronic media; downloadable electronic media for telephones; computer software to enable uploading, posting, downloading, showing, displaying, sharing or otherwise providing electronic media or information over the Internet or other communications networks; computer software for visually representing utility consumption; videos, images, text and information provided by on-line delivery and by way of the Internet or the world-wide web or other communications network; broadband installations; CDs, DVDs and MP3s; wireless connectivity platforms; telecommunications networks; portable and handheld digital electronic devices for monitoring and controlling the consumption of utilities; electronic devices for

Class 11.	controlling heating, cooling and ventilation systems; computer hardware and computer software used to enable wireless connection between computers, computer peripherals, computer hardware devices, consumer, commercial and industrial electronics and cellular telephones; computer software and hardware for providing wireless connectivity for machine to machine communication; computer software and hardware for providing wireless connectivity for the internet of things; sensors; motion sensors; temperature sensors; touch sensors; flood sensors; computer software for controlling the operation of electrical appliances; thermostats; computer software for processing and reporting data from electricity, water, gas and other utility monitoring modules and wirelessly controlling domestic and commercial apparatus and appliances in order to regulate or reduce said consumption; security cameras; security alarms; temperature and humidity measuring apparatus, and temperature and humidity indicators; electric switches; electric and electronic timers; solar panels for electricity generation; photovoltaic solar modules and panels; photovoltaic installations and apparatus for generating electricity; charging stations for electric vehicles; parts and fittings for all the aforesaid goods.	air conditioning apparatus; central heating boilers; electric boilers; central heating systems and boilers; condensing boilers and gas fires; micro combined heat and power systems; gas regulators; radiators; solar heating panels and apparatus; biomass fuelled heaters; water heaters; installations, units and apparatus for treatment of water; light bulbs; electric heaters; electric storage heaters; thermostatic valves; parts and fittings for the aforesaid goods.
		Class 12. Electric vehicles; electrically powered vehicles; parts and fittings for all of the aforesaid goods.
		Class 16. Printed matter and publications; books; manuals; brochures; magazines; handbooks; newsletters; stationery; calendars; printed signs and posters; stickers; notepads; notebooks; pens; pencils; instructional and teaching material.
		Class 17. Insulating materials; non-metallic pipes; flexible pipes; insulators for cables; insulators for electric mains; clips of rubber for cables; electrical and thermal insulators, draught excluder strips; junctions and reinforcing materials; junctions and reinforcing materials all for pipes; junctions not of metal for pipes; processed artificial resins; non-metallic connectors and seals for fuel lines; parts and fittings for all the aforesaid goods.
		Class 19. Non-metallic building materials and products; timber joinery for use in building; non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal.

- Class 35. Computerised database management; computerised file management; database management; data verification; data entry and data processing; compilation of information into computer databases; on-line data processing services, business consultancy; business project management; compilation or provision of business or trade information; preparation of reports; business project management services; setting up, organisation, administration, operation and supervision of customer loyalty schemes and incentive and promotional schemes; utility meter reading for billing purposes; gas and electricity meter reading for billing purposes; business and advisory services relating to the purchase and sale of gas and electricity; retail and wholesale services connected with the sale of electricity and gas; business project management in relation to the generation, conservation, storage, and distribution of energy; promotional, advertising, marketing and publicity services; market analysis; publication of publicity texts; preparation of publicity materials; promoting the use of renewable energy; computerised business information retrieval; provision of consumer advice and information relating to energy and climate change; consultancy, information and advisory services relating to all of the aforesaid services.
- Class 36. Financial services; insurance services; insurance and financial services relating to electricity, gas and/or energy; credit and debit card services; financial and insurance services relating to electric vehicles; financial and

insurance services relating to telecommunication apparatus and systems; advisory services relating to credit; arranging of credit; consumer credit services; credit agency services; credit assessment services; financial services relating to the use of energy efficient gas and electric services and appliances; awarding of grants in relation to the use of energy efficient gas and electric services and appliances; provision of financial funding and investment of projects relating to energy production, supply and distribution including renewable energy; project financing; credit counselling services; consultancy relating to financing of energy projects; financial risk management; financial consultancy in the energy sector; financial valuation relating to heating costs; financial information for investors; venture capital services; economic and financial evaluation of renewable energy projects; financing renewable energy projects; creation and issue of financial instruments based on the creation, sale, transmission and processing of electricity or fuels; energy trading; trading of electricity and gas as financial commodities; commodity trading and brokerage; financial sponsorship; fund management and investment services for community projects; information and advisory services relating to all the aforesaid services.

- Class 37. Gas installation; installation of electricity generators; repair of gas supply systems; testing for faults and damage in pipes and pipelines; beneath ground construction work relating to gas supply

pipelines; building and construction services; construction, repair and maintenance services for electrical, gas and water infrastructures and installations; construction, repair and maintenance of buildings; installation, repair and maintenance of communications network apparatus and instruments, communications systems, electrical and gas installations and apparatus; building construction supervision; construction, repair and maintenance of bridges, roads, tunnels, railways, underground and other structures; installation, repair and maintenance of railway networks, signals, overhead lines and points; construction, repair and maintenance of electricity transmission and distribution networks; building project management; building refurbishment; installation, maintenance and repair of street lighting installations; installation, maintenance and repair of highway and/or motorway lighting installations; installation of pipelines; pipeline laying; pipeline construction; pipeline repair and maintenance; installation, repair and maintenance of electrical generation equipment, electrical distribution equipment, electrical apparatus and electrical goods; civil engineering construction; heating contractor services; central heating installation, maintenance and repair; heating equipment installation and repair; installation, repair and maintenance of boilers and radiators; plumbing services; electrical wiring services; refurbishment of boilers and heating apparatus;

repair, maintenance and installation of gas and electricity supply equipment; repair, maintenance and installation of telecommunication apparatus and equipment and communications network apparatus and instruments; construction, installation, maintenance and repair of electrical charging stations and electric charging points; construction, erection, installation, maintenance and repair of turbines, offshore turbines, wind mills, power plants, wind turbines, wind farms and onshore and offshore electricity substations; installation of geothermal energy systems and construction of geothermal power plants; construction of geothermal power plants and energy installations; construction of hydroelectric power stations and hydropower systems; installation, maintenance and repair of solar panels, solar energy apparatus, solar thermal installations and photovoltaic apparatus; construction of utility solar installations; construction and maintenance of photovoltaic power stations; insulation services; building insulation; retrofitting of insulation; advisory and consultancy services relating to all of the aforesaid services.

Class 38. Communications services; telecommunication services; telephony services; telephone line rental; broadband data transmission; broadband communication services; operating call centres; electronic mail services; communications by fibre optic networks; fibre optic telecommunication services; internet based telecommunication services;

Class 39.	telecommunication network services; providing access to computer networks; data transmission services over computer networks; providing internet access; internet provider services; message sending services; provision of telecommunications access and links to computer databases and the Internet; providing access to databases on the internet; providing access to MP3 websites on the Internet; provision of wireless telecommunications via electronic communication networks; electronic sending of data via the Internet; electronic transmission of audio and video files via communications networks; provision of access time to web-sites featuring multimedia materials; providing users with access time to electronic communications networks; communication of information by electronic means; communication of information between apparatus for monitoring and displaying consumption of utilities and the internet; consultancy, information and advisory services relating to all the aforesaid services. Distribution, storage and supply of electricity, gas, power, water and fuels; heat supply (distribution); gas and electricity storage; distribution of energy; distribution of renewable energy; transportation and delivery of gas and gaseous fuels; operation of gas transportation networks; public utility services in the nature of electricity, water, energy and natural gas distribution; water distribution; distribution and supply of electricity to charging points for electric vehicles; transmission of	electricity; provision of facilities for the distribution and supply of electricity to electric battery charging points, charging posts and battery charging points for electric vehicles; grid energy storage; large scale energy storage; large scale battery storage; distributed heat storage; consultancy, information and advisory services relating to all the aforesaid services. Class 40. Production of energy; production of gas and electricity; power generation; electricity generation; generation of energy from renewable sources; generation of electricity from wind, solar and wave energy; leasing of energy generating equipment; generation of electricity from geothermal energy; water treatment services; fuel refining; processing of fuel materials; sewage treatment services; treatment of effluent; refinement of fuel materials; generation of electricity from geothermal energy; generation of energy via wind farms; generation of electricity from solar energy; production of hydroelectric power; treatment of industrial waste and hazardous products, liquids and gases; recycling services; recycling and transformation of waste products; material treatment of biomass; extraction, conversion and treatment of bi-products from power stations and cooling towers; services for the treatment of carbon emissions (carbon capture); carbon capture and storage services; hydrogen powered electricity generation; hire of electricity generators; information, consultancy and advisory services relating to the above.
