Examination in Law & Practice of Patents

Due to continuing COVID 19 restrictions, it is proposed to hold an online e-examination in the law and practice of Patents on **26 April, 2022**. The latest date for receipt of applications from persons who wish to sit this examination is **25 March, 2022**.

Candidates wishing to be examined must have submitted in advance to the Controller an application form and fee of €200 not later than **25 March, 2022**.

The e-examination will be in the same format and same duration (3 hours and 20 minutes) as last year. Past papers are available on the IPOI website.

The e-examination will be delivered through a software application called TestReach. The software will enable candidates to sit the examination at home or in the office and be supervised online. This means that there is no need to travel to a test centre.

Candidates can sit the e-examination using a computer desktop or laptop and enter the answers to questions on screen. An online supervisor will connect to candidates using audio, video and remote screenshare, and will be there to support candidates through the examination and make sure the exam is conducted with integrity.

To sit the remotely invigilated exam, candidates will need a standard desktop or laptop with a webcam, a microphone and good quality internet connectivity. Candidates cannot sit the exam on a mobile phone, tablet or Chromebook. Minimum system requirements for remotely invigilated exams are:

- A laptop or computer running Windows 7+ or macOS 10.10+
- Intel Core i3 (or equivalent) and 4GB RAM
- A working webcam, microphone and speakers.
- Good continuous internet speed of 516kbps or higher
- We also recommend a screen size of at least 13" and a resolution of 1024 x 768.

More information about TestReach is available at this link:

<https://www.testreach.com/candidate-support-frequently-asked-questions.html>

All candidates who have applied and confirmed their interest in sitting the 2022 e-examination will be furnished with other relevant information in due course.

Applications for Patents

From 23/12/2021 to 27/01/2022

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. Where an application has been filed pursuant to Section 127A, the filing date shall be either the date of the originating PCT filing, where applicable, or the date directed by the Controller. Where the application invokes the Paris Convention, the Convention country and priority date(s) claimed are given in square brackets. Where an application claimed the priority of an earlier application filed at this Office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Applications Published Under Section 28

The following applications become open to public inspection as from the date of this issue of the journal unless otherwise specified. The date given is the date of filing of the application or the earliest priority claimed. Any application made pursuant to Section 127A, where the originating PCT application has been published under that PCT in English, is accorded the PCT publication date of that application. For these Section 127A applications, the publication date is given in bold square brackets.

Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

Patents Granted Under European Patent Convention Designating Ireland

The Irish serial number appears first followed, respectively, by the proprietor's name, the date of filing of the application, the filing number and the European Patent Office publication number.

If the specification of the European patent was published in French or German the word 'French' or 'German', as appropriate, will appear as the last item of information.

Modular market stall system made from 18mm plywood. Uses an A shaped frame at either end with linear notches running the length. Supporting beams and cross bars can be hooked through these notches to create the stall form. These can be added at any height along the A frames. Flat shelves, hanging rails and cover panels can be added to the frame once standing. Two circular holes in the A frames allow two roof panels to be slotted in if required. The top two notches allow a branded sign to slot in and stand above the stall. Additional single A frames can be modularly attached to a single stall using the same beams in the linear notches. The two rows of notches allow adjacent stalls to share an A frame and still be able to use every level for positioning their display. Longer lengths of beams and cross bars allow for stalls with a larger footprint.

Examination in Law & Practice of Trade Marks

Due to continuing COVID 19 restrictions, it is proposed to hold an online e-examination in the Law and Practice of Trade Marks on **28 April, 2022**. The latest date for receipt of applications from persons who wish to sit this examination is **25 March, 2022**.

Candidates wishing to be examined must have submitted in advance to the Controller an application form and fee of €200 not later than **25 March, 2022**.

The e-examination will be in the same format and same duration (3 hours and 20 minutes) as last year. Past papers are available on the IPOI website.

The e-examination will be delivered through a software application called TestReach. The software will enable candidates to sit the examination at home or in the office and be supervised online. This means that there is no need to travel to a test centre.

Candidates can sit the e-examination using a computer desktop or laptop and enter the answers to questions on screen. An online supervisor will connect to candidates using audio, video and remote screenshare, and will be there to support candidates through the examination and make sure the exam is conducted with integrity.

To sit the remotely invigilated exam, candidates will need a standard desktop or laptop with a webcam, a microphone and good quality internet connectivity. Candidates cannot sit the exam on a mobile phone, tablet or Chromebook. Minimum system requirements for remotely invigilated exams are:

- A laptop or computer running Windows 7+ or macOS 10.10+
- Intel Core i3 (or equivalent) and 4GB RAM
- A working webcam, microphone and speakers.
- Good continuous internet speed of 516kbps or higher
- We also recommend a screen size of at least 13" and a resolution of 1024 x 768.

More information about TestReach is available at this link:

<https://www.testreach.com/candidate-support-frequently-asked-questions.html>

All candidates who have applied and confirmed their interest in sitting the 2022 e-examination will be furnished with other relevant information in due course.

Application for Registration of marks published under Section 43(1) of the 1996 Act following acceptance

Notice is hereby given that Applications for the Registration of the undermentioned trade marks have been accepted.

Any person who desires to oppose the registration of these trade marks may within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the Applicant affording him an opportunity to withdraw his application for registration. In this way cost of opposition proceedings may be avoided.
