Examination in Law & Practice of Patents

Due to continuing COVID 19 restrictions, it is proposed to hold an online e-examination in the law and practice of Patents on **26 April, 2022**. The latest date for receipt of applications from persons who wish to sit this examination is **25 March, 2022**.

Candidates wishing to be examined must have submitted in advance to the Controller an application form and fee of €200 not later than **25 March, 2022**.

The e-examination will be in the same format and same duration (3 hours and 20 minutes) as last year. Past papers are available on the IPOI website.

The e-examination will be delivered through a software application called TestReach. The software will enable candidates to sit the examination at home or in the office and be supervised online. This means that there is no need to travel to a test centre.

Candidates can sit the e-examination using a computer desktop or laptop and enter the answers to questions on screen. An online supervisor will connect to candidates using audio, video and remote screenshare, and will be there to support candidates through the examination and make sure the exam is conducted with integrity.

To sit the remotely invigilated exam, candidates will need a standard desktop or laptop with a webcam, a microphone and good quality internet connectivity. Candidates cannot sit the exam on a mobile phone, tablet or Chromebook. Minimum system requirements for remotely invigilated exams are:

- A laptop or computer running Windows 7+ or macOS 10.10+
- Intel Core i3 (or equivalent) and 4GB RAM
- A working webcam, microphone and speakers.
- Good continuous internet speed of 516kbps or higher
- We also recommend a screen size of at least 13" and a resolution of 1024 x 768.

More information about TestReach is available at this link:

<https://www.testreach.com/candidate-support-frequently-asked-questions.html>

All candidates who have applied and confirmed their interest in sitting the 2022 e-examination will be furnished with other relevant information in due course.

Applications for Patents

From 01/02/2022 to 10/02/2022

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. Where an application has been filed pursuant to Section 127A, the filing date shall be either the date of the originating PCT filing, where applicable, or the date directed by the Controller. Where the application invokes the Paris Convention, the Convention country and priority date(s) claimed are given in square brackets. Where an application claimed the priority of an earlier application filed at this Office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.
