Applications for Patents

From 08/04/2022 to 21/04/2022

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. Where an application has been filed pursuant to Section 127A, the filing date shall be either the date of the originating PCT filing, where applicable, or the date directed by the Controller. Where the application invokes the Paris Convention, the Convention country and priority date(s) claimed are given in square brackets. Where an application claimed the priority of an earlier application filed at this Office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Registered under the 1996 Act,
Granted**

246187 Cl. 43. AUDREY GARGAN

A representation of the mark in its altered form was advertised in Journal No: 2210

International Registrations under the Madrid Protocol seeking protection in the State.

Any person desiring to oppose the conferring of protection in the State to the undermentioned marks may, within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the holder affording him an opportunity to withdraw his application for protection of the International Registration in the State. In this way cost of opposition proceedings may be avoided.

Electrical and electronic equipment and wiring accessories in this class, namely batteries, battery chargers, dischargers and eliminators, electrical cables and connectors, electrical leads, extension leads, transformers, power supplies, solar-based power supplies, power boards, power points, power adaptors, adaptors, connectors, plugs, switches, dimmers, power over ethernet switches, sockets, socket outlets and connection units; solar panels; electric apparatus for dispensing measured quantities; mobile phone accessories, namely phone chargers, hands-free kits for mobile phones; power sources, dry batteries and rechargeable batteries; security systems, namely, security sirens, indoor and outdoor security cameras, security apparatus for storing and for transmitting audio and video signals, security contact switches and sensors, smart alarm systems; access control equipment and systems; biometrics access and control apparatus and equipment namely fingerprint and facial recognition access and control apparatus and equipment; access and control apparatus and equipment incorporating facial recognition and fingerprint scanners or readers; facial recognition scanners; fingerprint scanners; fingerprint readers; facial recognition readers; anti-theft warning apparatus; alarms and alarm systems; intrusion and theft detectors; door intercoms; electric locks; digitally controlled locks; keypads; padlocks, electric; electronic security devices and systems, security sensors; surveillance equipment and systems; security cameras; television monitoring apparatus and video screens in relation to security; apparatus for data communications between computers; apparatus for linking computers; apparatus for linking computers into networks; communications electronics for computers; computer chips for use in smart home operation and automation; firmware for use in smart home operation

and automation; computer software namely computer software for use in smart home operation and automation; computer software namely computer software adapted for use in the operation of computers; downloadable software applications (apps) namely downloadable software applications (apps) for use in smart home operation and automation; devices for use in the networking of computers; electric devices for transmission of data between computers; electrical communications apparatus for use with interconnecting computers; interface boards for computers; interface cards for computers; interfaces (for computers); interfaces between application programs and firmware on real-time computers; electric leads for use with computers; electrical cables for connecting computers; electrical cables for connecting computers; wireless apparatus; wireless communication apparatus; indoor and outdoor antennas; television antennas; combination antennas; ribbon antennas; high gain antennas; wideband antennas; telemasts, mounting equipment for antennas namely mounting brackets and draw bars; headphones; amplifiers; separators; filters; control apparatus; infrared remote control apparatus; infrared sensors; passive infrared sensors; remote controls; Remote control devices for use with electronic fans and ventilation installations; wireless transmission apparatus for remote control; radio frequency transmitters; radio frequency receivers; apparatus for use in remote control; ceiling roses containing terminals; selective entry junction boxes; mounting jack outlets; portable electric sockets; electric door bells; video doorbells; push buttons for bells; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; telephone apparatus; sensors (other than for medical use) namely electrical and electronic sensors, electric current

sensors, shock sensors, vibration sensors, smoke sensors, fire sensors, heat sensors, alarm sensors, motion sensors, contact sensors, temperature sensors, humidity sensors, flushing sensors, water sensors, light sensors, lux sensors, narrow beam sensors, microwave sensors, pressure sensors and sensors for tapware; apparatus for recording, transmission and reproduction of sound; audio speakers, loudspeakers, loudspeakers components, transducers for loudspeakers, compression drivers, horns for loudspeakers, woofers, tweeters; sirens; electronic docking stations; timers, namely digital timers, automatic timers for use with kettles, countdown timers, electric timers, electrical switch timers, electronic timers, programmable timers, timers (control devices), timers for automatic apparatus, timers for switching on electrical devices at pre-programmed times, universal timers; water timers; surge protectors; energy cost meters; power meters; water meters; solenoids; light emitting diodes (LEDs); parts, accessories and fittings for the aforesaid goods all being electrical and electronic.

Application for Registration of marks published under Section 43(1) of the 1996 Act following acceptance

266156 Advertised in Journal No. 2453 dated 22/12/2021 under the heading Application for Registration of marks published under Section 43(1) of the 1996 Act following Acceptance, Trade Mark No. 266156, Class 6 should have appeared as follows:

Blinds; venetian blinds, vertical and horizontal blinds, door and window screens, roller shutters, parts and fittings for fixing and mounting blinds, shades, draperies, screens and insect screens, curtain tracks of metal, brackets for curtain tracks, rods, poles, accessories for hanging and fastening curtains, blinds, venetian blinds, vertical and horizontal blinds, door and window screens, cross profiles, brackets, rails, rods, elbow, holding devices, sealing caps, connecting elements, handles, buttons, clamps, tie rods, fastening parts, knobs, hinges,

guides, spindles, carabiners, guide parts,
devices for lifting and lowering blinds,
roller gliders, all made of metal.
