Applications for Patents

From 04/10/2024 to 17/10/2024

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. Where an application has been filed pursuant to Section 127A, the filing date shall be either the date of the originating PCT filing, where applicable, or the date directed by the Controller. Where the application invokes the Paris Convention, the Convention country and priority date(s) claimed are given in square brackets. Where an application claimed the priority of an earlier application filed at this Office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Applications Published Under Section 28

The following applications become open to public inspection as from the date of this issue of the journal unless otherwise specified. The date given is the date of filing of the application or the earliest priority claimed. Any application made pursuant to Section 127A, where the originating PCT application has been published under that PCT in English, is accorded the PCT publication date of that application. For these Section 127A applications, the publication date is given in bold square brackets.

Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

Address for service is c/o SAS JAY
C/o Munteanu Tudor, 9 Rue des Maraichers, 95130 Franconville, France

Date of Registration: 28 April 2024.

The design showcases a rectangular, portable electronic device with consistent parallel grooves that enhance thermal dissipation, improve grip, and convey a modern aesthetic. The grooves wrap seamlessly around the entirety of the device, contributing to a cohesive design language. The device features softly curved corners that are prominently curved as seen from the top view, adding to its portable and ergonomic form. The front view boasts three evenly spaced ports, set within a clean, uncluttered interface, while the back supports two ports, their placement integral to the design's symmetry and functionality. The careful spatial arrangement of these ports suggests a thoughtful approach to user interaction and device connectivity.

9 Rue des Maraichers, 95130 Franconville, France

Date of Registration: 28 April 2024.

This design depicts a sleek, rectangular portable electronic device characterized by its smooth surfaces that emphasize a minimalist aesthetic. Softly curved corners, prominent when viewed from above, contribute to its ergonomic form, making it comfortable to handle. The device's front is equipped with three evenly distributed ports, maintaining a clean and functional interface, while the rear houses two ports, strategically placed to preserve the design's symmetrical appeal. The design's thoughtfully arranged ports underscore a user-centric approach to connectivity and portability.

23604 14.03,14.02 SAS JAY, 1 Rue de Stockholm, 75008 Paris, France
Address for service is c/o SAS JAYc/o Munteanu Tudor
9 Rue des Maraichers, 95130 Franconville, France

Date of Registration: 28 April 2024.

This design illustrates a portable electronic device featuring slim proportions and a surface adorned with parallel grooves that enhance thermal dissipation, improve grip, and convey a modern aesthetic. Softly curved corners, prominent when viewed from above, contribute to its ergonomic form, making it comfortable to handle. The front is devoid of any ports, maintaining a sleek appearance, while the rear accommodates a singular port, centered for balanced design. This single port's strategic placement reinforces the device's minimalist and functional charm, suitable for seamless integration into user environments.
