**Examination in Law & Practice of Patents**

It is proposed to hold an online e-examination in the law and practice of Patents on **25 April, 2023**. The latest date for receipt of applications from persons who wish to sit this examination is **31 March, 2023**. Candidates wishing to be examined must have submitted in advance to the Controller an application form and fee of €200 not later than **31 March, 2023**.

## **Applications for Patents** **From 06/01/2023 to 26/01/2023**

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. Where an application has been filed pursuant to Section 127A, the filing date shall be either the date of the originating PCT filing, where applicable, or the date directed by the Controller. Where the application invokes the Paris Convention, the Convention country and priority date(s) claimed are given in square brackets. Where an application claimed the priority of an earlier application filed at this Office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

## Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

## Patents Granted Under European Patent Convention Designating Ireland

The Irish serial number appears first followed, respectively, by the proprietor's name, the date of filing of the application, the filing number and the European Patent Office publication number.

If the specification of the European patent was published in French or German the word 'French' or 'German', as appropriate, will appear as the last item of information.

Chipputt Club. The design incorporates a "two in one" golf club head, combining a golf club putter face and a golf club chipper/jigger face within the club head. The club shaft/handle will include a clip with a mechanical switch to rotate the club head 180 degrees and lock it into position. This clip switch mechanism enables a golf player to twist and lock the required club head face for play, when and where required. The clip switch mechanism also enables the club to be used by both right and left hand players. Aesthetic design finishes can be adapted to suit. Regulated/recommended club head and shaft/handle dimensions, angles, loft and lie ground angles can also be applied. All dimensions and angles as shown on the seven images, as submitted with this application, are for illustration purposes only.

### Leave to Alter Trade Mark(s) Registered under the 1996 Act, Granted

**248850** Cl. 41. ECAMS Innovation Limited

A representation of the mark in its altered form was advertised in Journal No: 2241

## International Registrations under the Madrid Protocol seeking protection in the State.

Any person desiring to oppose the conferring of protection in the State to the undermentioned marks may, within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the holder affording him an opportunity to withdraw his application for protection of the International Registration in the State. In this way cost of opposition proceedings may be avoided.
